#### REPORT

#### **BACKGROUND** [See WAC 173-153-130(6)(a)]

The applicant filed for changes to the subject water right as referenced above. Said application was accepted by the board on that filing date and given the above application number. Public notice of the application was given in the Wenatchee World on 6/18/09 and 6/25/09. Protest period ended on 7/25/09. See attached Notice of Application for Changes to a Water Right together with it's affidavit of publication. In addition to publication this notice was sent to the Department of Fish and Wildlife and the Department of Archeology and Historic Preservation. The attributes of the certificate and the proposed changes are as follows:

Water Right Claim Number **CS4-WRC001265** was transferred to a well located in NW ¼, SE ¼, Section 13, Township 27N, Range 16, E.W.M. and recommended for approval on February 13, 2002 by the Chelan County Water Conservancy Board and modified by the Department of Ecology on May 6, 2002.

The proposed change involves correcting an error in the Point of withdrawal for the above mentioned Water Right Claim. The Point of Withdrawal is actually located in the NE ¼, SE ¼, Section 13, Township 27N, Range 16, E.W.M. at Latitude N47.50.208 and Longitude 120.47.133

#### COMMENT AND PROTESTS [See WAC 173-153-130(6)(b)]

There were no protests received during the 30 day protest period. In addition, no oral and written comments were received at an open public meeting of the board or other means as designated by the board.

The information or conclusions in this section were authored and/or developed by Lisa deVera.

#### **INVESTIGATION** [See WAC 173-153-130(6)(c)]

The following information was obtained from a site inspection conducted by Don Phelps, technical reports, recent aerial photos, research of department records, and conversations with the applicant and/or other interested parties.

When the water right was changed in 2002 the well was identified as being in the NWSE of Section 13, T27N, R16E and so recorded in the approved ROE. Subsequently the Department of Ecology did some more accurate mapping of the well location and found that it was actually over the quarter section line and in the NESE of Section 13, T27N, R16E. This change is being processed at the request of DOE for the purposes of correcting the Point of Withdrawal. There are actually 3 separate water rights being withdrawn from this well and the other two rights (CS4-WRC028802 and CS4-WRC017516@2) are also being changed at this time to correct the legal description of the well location.

The information or conclusions in this section were authored by Don Phelps.

#### **CONCLUSIONS** [See WAC 173-153-130(6)(d)]

The Board agrees to the applicant's request to correct the legal description of the existing well as requested by the Department of Ecology in letter dated April 2, 2009. This letter is referenced as appendix No. 5.

#### **DECISION** [See WAC 173-153-130(6)(e)]

The board hereby approves the application.

#### **PROVISIONS** [See WAC 173-153-130(6)(f)]

The following provisions are to be included as a part of the application approval decision referred to in the preceding section:
